

Quotidian Tee Project Planner

This project is designed to allow you to create your perfect tee shirt. There are a LOT of options - a total of 24 silhouette and sleeve length combos that are included, plus a few additional modification options. This project planner provides you with all of the information you'll need to prepare for your project and get ready to cast on. Fill out the worksheet on the next page with your selected options.

Share your project as you get started: Use the tags #quotidiantee #kerricknits when sharing photos of your project on instagram! You are also welcome to tag me directly (I'm @kerricknits) - I love seeing your projects!

Garment Construction: This is a seamless, set-in sleeve top with V neckline. The body is worked bottom up in the round, with the front and back knit flat above the armholes. The shoulders are joined with a 3 needle bind off. Set in-sleeves are worked from the top down with short row cap shaping, and the neckline trim is picked up and knit to finish the piece.

Suggested Yarn: Coates & Co. Fiber Cottage Sock, or other light fingering or fingering weight yarn that knits to gauge

Sizes: 30 (34, 38, 42, 46, 50, 54, 58, 62, 66, 70)" / 76 (86.5, 96.5, 106.5, 117, 127, 137, 147.5, 157.5, 167.5, 178) cm

Yarn Requirements: Varies based on silhouette and sleeve length chosen. See table on page 7 for full details.

Gauge: 26 sts and 34 rows = 4" / 10 cm
Stockinette st in the round, blocked

Needles and Notions: US Size 3 / 3.25 mm circular needles & DPNs, stitch markers, removable stitch markers, stitch holders, tapestry needle

My Quotidian Tee

Size: Take a minute to measure your own body at your full bust - make sure to wear the same type of undergarment you would plan to wear with your finished tee! Sizing and ease guidance is included on the next page with the schematic. If you're not quite sure what size to choose, be sure to follow the tip of measuring a well-liked tee in your own closet to make sure you're on the right track. Full measurements for the finished garment are on pages 4-5 if you'd like to compare to additional body measurements (or to that favorite tee you already own!)

My full bust:

Chosen Size:

Silhouette: Think about the fit of the garments you wear most frequently - and that you feel great wearing. What makes you reach for them first in your closet? Do you tend to prefer certain shaping in the body, or particular body or sleeve lengths? See all of the variations available in the pattern on page 6 and select your options below. Note: There are modification tips in the pattern to make 3/4 sleeves instead of long sleeves, and to make the fitted body into a cropped length.

1. Body Fit | Choose the silhouette that you feel will work best for your preferences.

Straight

A Line

Fitted < Fitted Waist
Semi-Fitted Waist

2. Body Length | Choose your desired length. A Line only available in Mid-Hip. Fitted Crop available with modification tip.

Cropped

High Hip

Mid Hip

3. Sleeve Length | Choose your sleeve length and fit.

Short Sleeve

Long Sleeve < Fitted
Relaxed

3/4 Sleeve < Fitted
Relaxed
(modification)

Swatching: This is a key step in making sure your garment will fit the way you want because your gauge will determine the finished measurements of your top. Try to get as close as possible to the gauge listed in the pattern. If you can't meet both stitch and row gauge, prioritize meeting stitch gauge for this project as it will have the biggest impact on fit. For accurate gauge readings, follow swatching best practices:

- Cast on at least 6" worth of stitches for your swatch.
- Swatch with the exact yarn and needles you're planning to use for your project.
- Wash and block your swatch in the same manner that you plan to wash your finished garment.
- If your gauge doesn't match the pattern, try a different size needle than the pattern calls for.

This top is mostly knit in the round. Many knitters have different gauge when knitting flat vs. knitting in the round, because there's no purling involved when working in the round! For a more reliable gauge reading, I recommend swatching in the round for this project using a "swatch flat in the round" technique. Watch the tutorial here & read more detailed swatching tips: kerriknits.com/swatch-in-the-round

Schematic

Note: Bicep Circumference for long sleeve matches Short Sleeve Opening (I1). A Line Body & Fitted Body schematics are not fully labeled — Only unique measurements for the silhouette are shown. All other label locations and measurements (A-I3) shown on Straight Body are identical on these silhouette options.

A Line Body

Fitted Body

Choosing a Size: Sample is shown in fitted body with semi-fitted waist, high hip length and short sleeves. Garment is size 38", worn with 1" of negative ease (wearer's bust measures 39"). To achieve a similar look, choose a size that is up to 2" smaller or up to 2" bigger than your actual full bust measurement.

Ease preferences are just that - preferences! Your perfect tee may have a different fit than my sample. Find a favorite tee shirt in a lightweight knit (store-bought is fine!) and measure the chest at about 1" below the armhole. Choose a size that is closest to, but not smaller than, this measurement. For in-depth reading on ease and how to learn more about your individual preferences, head to kerriknits.com/sweater-study.
